

Dissertation thesis

In the range of 1-2 pages

The dissertation thesis contains in a brief form the basic ideas, methods, results and conclusions of the dissertation. These can be written in English. These will be received by all members of the defence committee and opponents.

a) goal of the dissertation: to formulate in the form of clear questions or hypotheses

b) methods: using what procedures and techniques the objectives have been met

c) results: what key (new) findings within the analysis the student came to

d) social relevance: how the newly discovered facts were (or can be) used socially / practically

e) impact: how the outputs related to the dissertation were published: i) in the scientific literature (articles, books), ii) in professional periodicals for key actors, iii) in other media for the public
