A Step Forward in Promoting EU Values through Higher Education

The EmbED-EU project has made exciting strides in recent months, with key progress in the development of resources and tools to bring EU values into higher education. This newsletter provides a snapshot of our recent achievements, ongoing developments, and upcoming milestones. Read on to discover how our collaborative work is shaping inclusive, value-driven education across Europe.

● Stay Connected

The EmbED-EU project continues to gain momentum, and we're excited to see our collective vision take shape. We look forward to sharing the MOOC, upcoming events, and more project outcomes with you soon. Stay tuned for further updates as we progress toward fostering inclusive, engaged, and value-driven education throughout Europe.

Progress on the EmbED-EU MOOC

The EmbED-EU project is thrilled to announce the progress of its flagship resource—a comprehensive Massive Open Online Course (MOOC) designed to immerse learners in the principles of the European Union. Developed with inputs from experts across the consortium, this MOOC will feature six essential modules:

1. Understanding the EU and Its Core Values
2. Relevance of EU Values in HE
3. EUCompAL Framework
4. Creating an Inclusive Learning Environment
5. Student Engagement and Participation
6. Reflection and Future Directions.

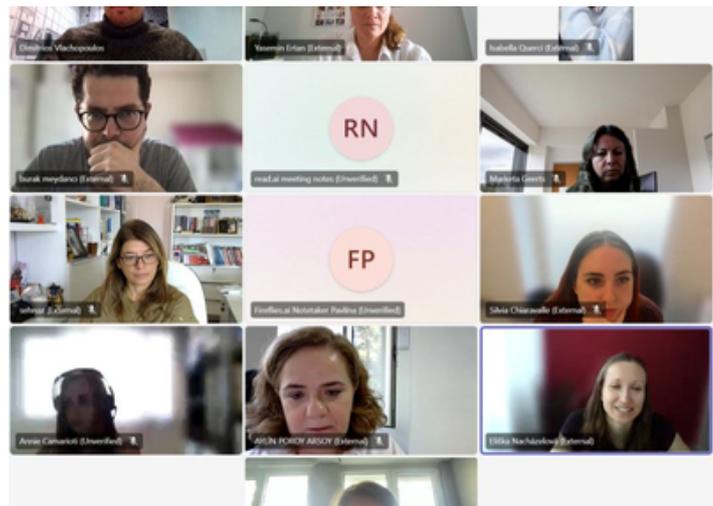

Initial recordings took place in September 2024 in Rotterdam

Upcoming

Mark your calendars! The final event for the EmbED-EU project will be held in Rotterdam in September 2025. More details will follow as we approach the event date, promising a meaningful culmination to the collaborative efforts of our project partners.

Key Updates from the October

● Consortium Meeting

- **MOOC Completion Timeline:** Partners are preparing for the MOOC's release, featuring video contributions from all partners' experts.
- **Digital Self-Reflection Tool:** Our Czech partner unveiled an innovative self-reflection tool that empowers learners to explore EU values interactively. Users will navigate a virtual map of Europe, answering questions and deepening their awareness of EU principles along the way. As they progress, they'll be evaluated across three key categories, allowing them to gauge their understanding and commitment to EU values.
